Double Channel Cystoscope Bridge provides two extra Instrument channel for Cystoscope Procedure.

Features :

- Designed to provide excellent utility.
- Durable & highly compatible.
- Advanced configuration .
- Autoclavable. .

Compatible with Karl STORZ and Richard Wolf

Cystoscopy Accessories

Optical Biopsy Forcep

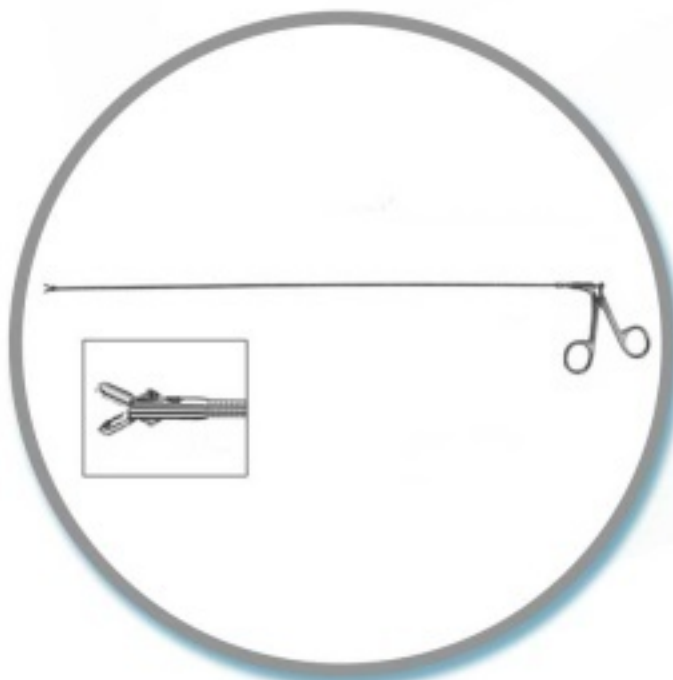

Use for tissue identification by optical analysis and biopsy sampling at a site within the body.

Features :

- Durable & highly reliable.
- Improved quality parameters.
- Anti-corrosive.
- Fine functionality.

Compatible with Karl STORZ.

Flexible Biopsy Forcep

Use for tissue identification by optical analysis and biopsy sampling at a site within the body.

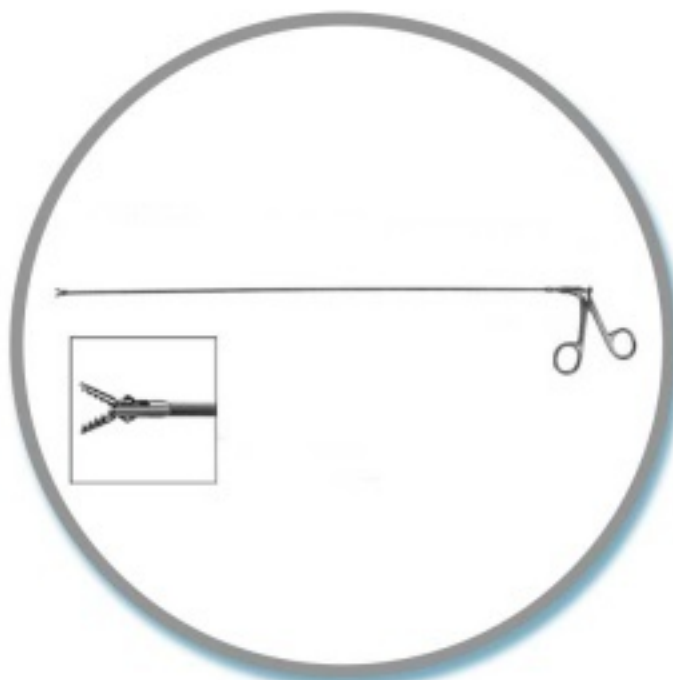

Features :

- Superior cutting performance.
- Less bleeding.
- Autoclavable & Reusable.
- High longevity.

Sizes
5 Fr, 7 Fr

Length
450 mm

Stent Removing Forceps

Stent Removing Forceps is designed for the easy removal of stents.

Features :

- Reusable & Autoclavable.
- Strong grasping.
- Alligator jaw for strong grip.

Sizes
5 Fr, 7 Fr

Length
450 mm

Bladder Stone Removal Instruments

Stone Crushing Forcep

Stone Crushing Forcep is use to remove bladder stone.
Compatible with 23.5 Fr or 25 Fr Cystoscopy Sheath.

Features :

- Provide excellent utility.
- Advanced configuration.
- Reusable & Autoclavable.

Available :

- Stone Crushing Forcep
- Stone Crushing Forcep SET
(Contains Stone Crushing Forcep and 25 Fr Cystoscopy Sheath)

Compatible with Karl STORZ and Richard Wolf

Stone Punch SET / Stone Punch Urology

Stone Punch Urology SET use for remove bladder stones.

Features :

- Fine finish & Corrosion resistance.
- Longer life & Easy to use.
- High performance.
- Advanced configuration.

Stone Punch SET Includes :

- Stone Punch
- Sheath
- Obturator

Litho Bridge

Litho Bridge is use with Pneumatic Lithotripter for bladder stone Fragmentation.

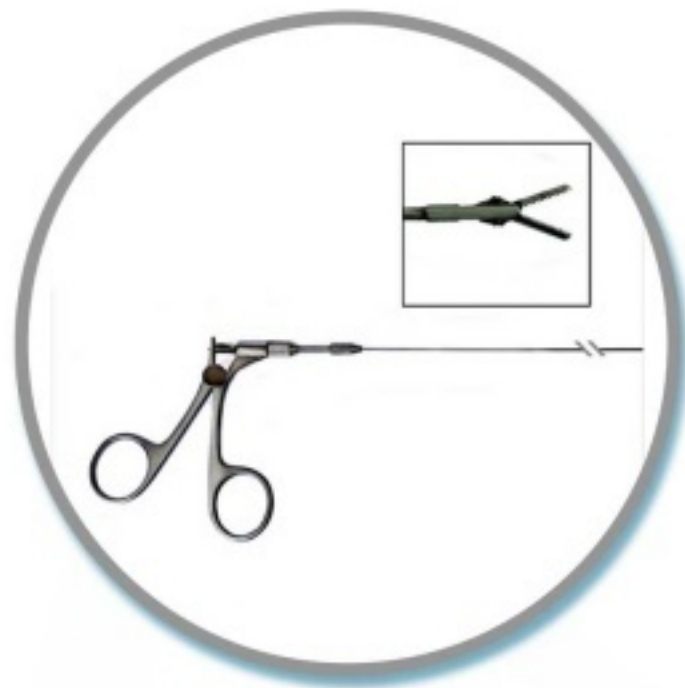

Features :

- Reusable & Autoclavable.
- Compatible with 23.5 Fr or 25 Fr Cystoscope Sheath.
- High performance.

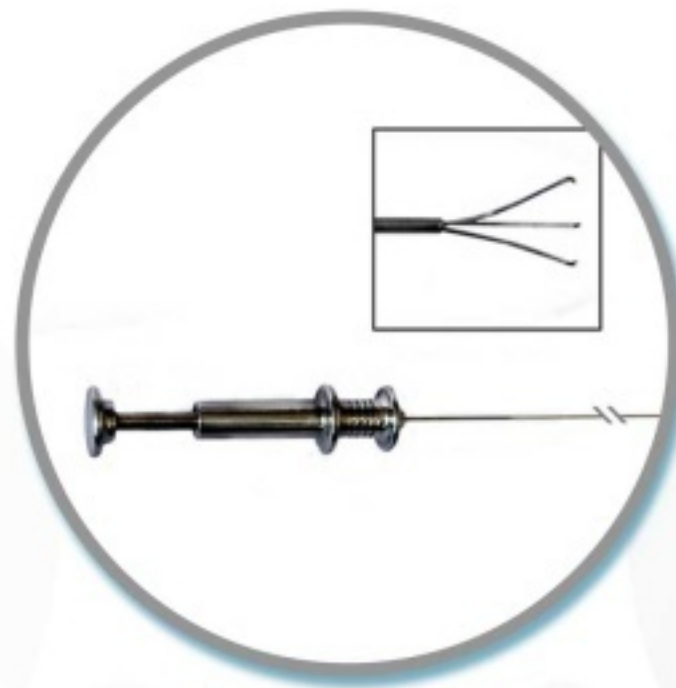

Compatible with Karl STORZ and Richard Wolf

Ureteroscopy Accessories

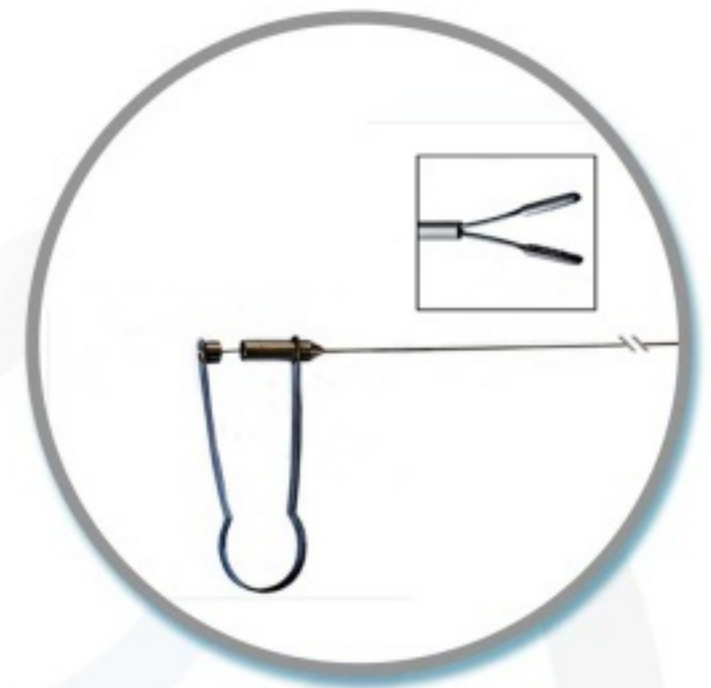

URS Forcep

URS Alligator Forcep

URS Triprong Forcep

URS Flat Jaw Forcep

URS Forcep used for the retrieval of fragmented stones from ureteral and renal pelvis after performing Lithoclast procedure.

Features :

- Durable & Easy to use.
- Reusable & Autoclavable.
- Anti-corrosive.
- Smooth finish.
- High performance.
- Strong grasping.

Sizes :

3 Fr, 4 Fr, 5 Fr

Length :

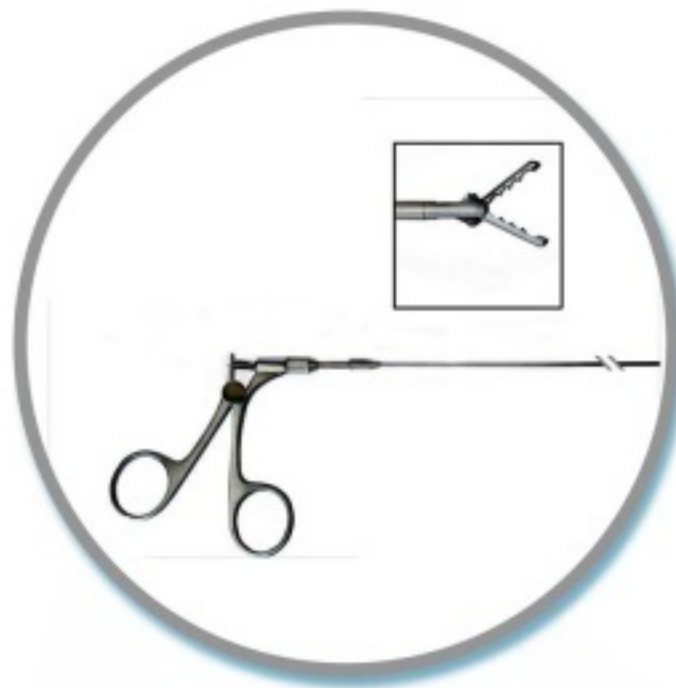

610 mm

Types :

- URS Alligator Forcep
- URS Triprong Forcep
- URS Flat Jaw Forcep

Nephroscopy Accessories

PCNL Forcep

PCNL Alligator Forcep

PCNL Alligator Forcep Used for the retrieval of fragmented stones from kidney after performing Lithoclast procedure.

Features :

- Reusable & Autoclavable.
- Durable & Easy to use.
- Anti-corrosive.
- Smooth finish.
- High performance.
- Strong grasping.

Sizes :

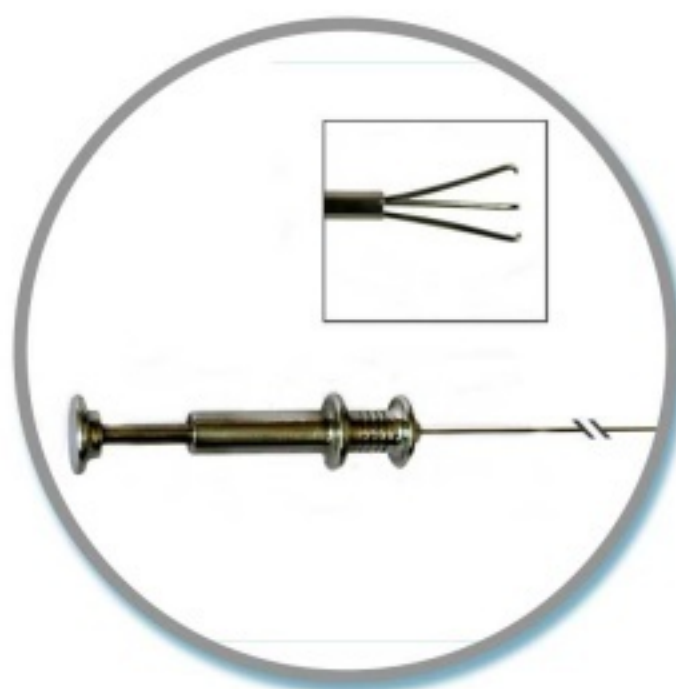

6 Fr, 9 Fr, 12 Fr

Length :

360 mm

Types :

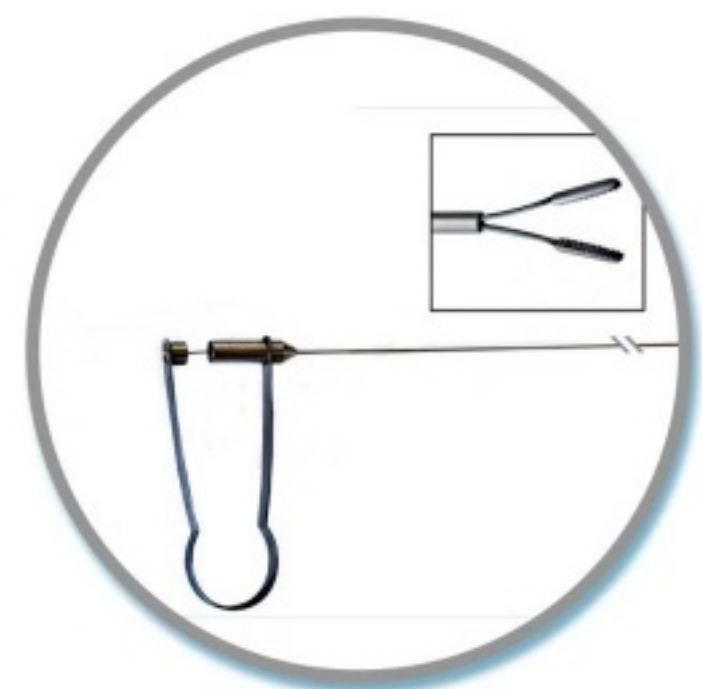

- PCNL Alligator Forcep
- PCNL Tripronge Forcep
- PCNL Peanut Jaw Forcep
- PCNL Flat Jaw U Handle Forcep

PCNL Tripronge Forcep

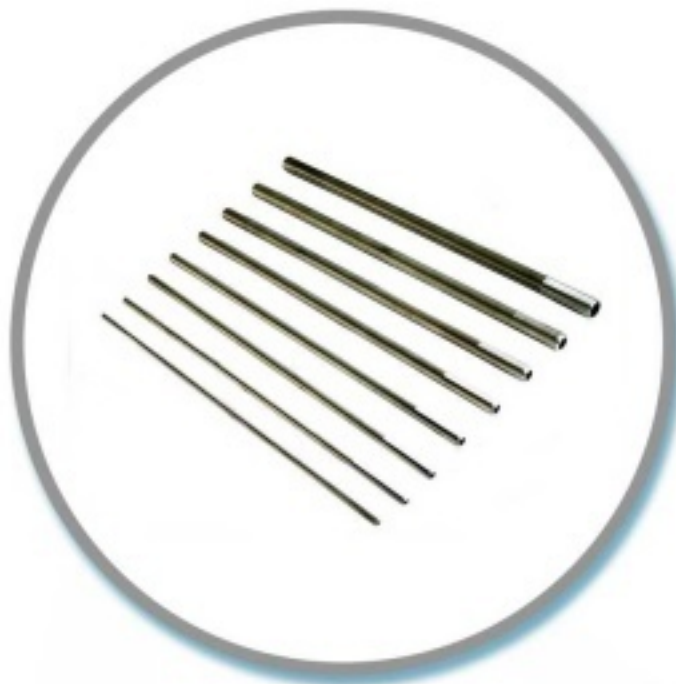

PCNL Peanut Jaw Forcep

PCNL Flat Jaw U Handle Forcep

Endoscopic Accessories

Alkine Telescopic Metal Dilator SET / PCN Metal Dilator SET

Alkine Telescopic Metal Dilator SET is used in dilation during PCNL Procedure.

Features :

Reusable & Autoclavable.
Optimum finish.
Reliable nature.
Anti-corrosive.

Sizes :

6 Fr - 30 Fr

Optical Urethrotome Sheath

Optical Urethrotome Sheath is used in Urethrotomy Procedure which involves incision of the urethra for relief of a stricture.

21 FR Optical Urethrotome Sheath comes with Obturator.

Features :

Good Locking System.
Tapered ends and assist in penetration.
With 2 fixed stopcocks.
Precise design.
Anti-corrosive.

Available with :
